EXPERIENCE

University of Utah, Salt Lake City

Information Security Office

Data Security Analyst | 2024 - Present
Cyber Security Event Analyst | 2023 - 2024

University Hospitals and Clinics

Biomedical Systems Administrator I | 2022 - 2023

University Medical Billing

IT Operation Specialist | 2019 - 2022

In a progression of roles at the University of Utah, from IT Operation Specialist to Biomedical Systems Administrator and Cyber Security Event Analyst, and currently as a Data Security Analyst, I have demonstrated a diverse skill set. My responsibilities encompassed maintaining and managing day-to-day IT operations, installing and configuring systems, monitoring network and server performance, addressing vulnerabilities, and actively contributing to cybersecurity efforts, highlighting a comprehensive background in information security, systems administration, and IT infrastructure management.

EDUCATION

Western Governors University, Salt Lake City

Bachelors of Science, Cybersecurity and Information Assurance

PROJECTS

WGU and Trend Micro Malware Analysis Internship

Learned hands-on experience in the field of malware analysis, which involved identifying and analyzing malware samples. Had the opportunity to work with experienced analysts from Trend Micro to learn about the latest malware trends, analysis tools, and techniques.

University of Utah Professional Education

BootCamp Web Development

A short-term, intensive training program learning languages such as Python, JavaScript, HTML, CSS, and database languages.
